

- **Lvl:** The security level of the lock. The security level determines the minimum level of [Hacking Capture](#) required to open the lock by hacking.
- **Source:** This field indicates the in-game source for the code, which may be a pocket secretary (PS), dialogue (DLG), computer email (EM) or other source (MISC). Alternatively, a dash symbol (—) indicates that the listed keycode cannot be found in-game. These keycodes are known through alternative means, such as through the use of third party tools^[N 1] or by trial-and-error guessing. Keycodes can also be found in game data.

Dubai

| Location | Code | Lvl | Source |
|---|--------|-----|----------|
| The very first keypad, to which you restore electricity | 0451 * | 1 | [MISC 1] |
| Gate to the storage area (next to elevator) | 4801 | 1 | [PS 1] |
| Atrium doors | 0682 | 1 | [PS 2] |

* Entering this code unlocks the achievement, [A Heated Combination](#).
